DOLPHIN CLASS NEWS

Wow time has flown by! It's already the last month of summer! The first and fourth week we will be working on manners and using our words. We will work on sign language, the words to use and kind words. I encourage parents to work with your child at home too. We will be doing many hands on activities together during these weeks to build stronger relationships in our classroom. The second week our book is about making friends. I was very excited about this book, not only because the name of it is "Jessica" but it is a sweet book about making new friends. This week we will be doing most activities in pairs and having fun with our friends. The third week will be about school! The book I chose is about little llama's first day of school. This story I like to read to children on their first day. It basically says it is ok to miss your parents, but look at how much fun you can have in school! The last week my book is about making friends. I was very excited about this book, not only because the name of it is "Jessica" but it is a sweet book about making new friends. This week we will be doing most activities in pairs and having fun with our friends! We also have the end of the summer splash party this month! I hope you can all join us August 17 from 6pm-8pm at City Park pool!!! What a great month we have coming up!

~Jessica & Sydney

Classroom Goals

- I want the children to work on using their own words. They are amazing at asking for my help, but I want them to find their own words to problem solve.
- The children are doing so well with their fine motor that I want to switch it up this month and really work on large motor with them! I really encourage parents to keep them active at home as well!
- Finally, I want to work on their social-emotional development. I want to work with how they manage their feeling and take care of their own needs.
