If you are ever looking for more information about things going on in our classroom, we encourage you to be sure to keep up with these calendars, the white board on the way into our classroom and by checking in with teachers! Your parent boxes, notes on the sign in/out clipboards and the white board by the front desk also help to keep you updated

During the summer months, we spend lots of time outside, have lots of picnics and try to spend time in the sun and water. We are working hard at exploring our world, running, jumping and swimming!

*We could really use some helpers for our swimming field trip on the 20th!
Join us from about 9:30 to 12:00 and make some memories with your
child! Sign up on the clip board!*

Construction Update:

Thank you so much to all our helpers on moving day! We know this is a transition and appreciate your patience through the process. We are counting down the days until we are back in our own school!

The science lab has been dug out and we have been able to take out a few pieces of the walls to check out some structural questions we had. We will be pouring concrete for the science lab and digging the ground for the additional storage in the Eagle room this week as well as LOTS of demo of interior walls!
